

FULL MOTION SINGLE STUD MOUNTS

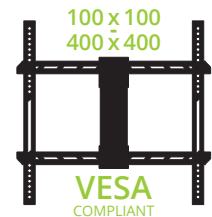

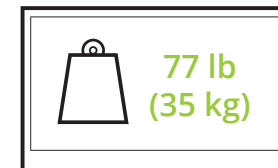

LS340

The LS340 is a single-stud, full-motion wall mount designed for 34 to 55-inch TVs. Offering up to 19.5 inches of extension, its articulating arm gives you the freedom to position your TV exactly where you want it. Improve line-of-sight and reduce glare with up to 180 degrees of swivel and 14 degrees of tilt. Built to meet UL safety standards, the LS340 can be reliably mounted to any wood-stud, brick or concrete wall, and comes with a drill template to ensure a quick and accurate installation. Plastic wall plate covers and cable management clips are also provided to maintain a clean, organized appearance.

- Product Weight: 12.5 lb (5.7 kg)
- UPC: 800152718750

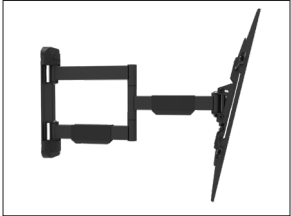

TECHNICAL ILLUSTRATIONS

FULL MOTION DESIGN

The articulating support arm lets you extend your TV up to 19.5 inches from the wall and swivel it 90 degrees in either direction. Maintain a perfect viewing angle wherever you're seated.

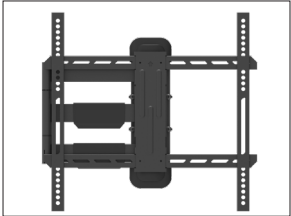

IMPROVED LINE-OF-SIGHT

Tilt your TV up to 12 degrees forward or 2 degrees backward to reduce glare and improve line-of-sight when mounting above eye-level. The tilt head can be easily tensioned to allow for on-the-fly adjustments or to lock your TV in place.

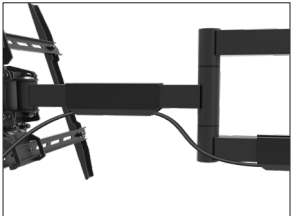

SAFETY FIRST

Designed to meet UL safety standards, the LS340's high-grade steel construction and heavy-duty lag bolts easily support up to 77 pounds. Achieve peace of mind knowing your TV is safely secured.

HASSLE-FREE INSTALLATION

The LS340 includes VESA-compliant mounting brackets to ensure compatibility with a wide range of TVs. To avoid second-guessing your measurements during installation, use the provided drill template to accurately mark your pilot holes.

ENHANCED APPEARANCE

Mounting your TV on the wall is a great way to improve the appearance of your A/V setup. To keep your viewing area looking tidy, the LS340 also includes cable management clips and plastic wall plate covers.
